ABOUT US

Hello and welcome to
our 2026 catalogue

At Luthag Furniture, we are passionate about creating high-quality solid wood beds that combine timeless beauty with sustainability. Using carefully selected pine wood, we craft products that are not only durable but also bring a natural charm to any bedroom. With a commitment to excellence, we deliver furniture that exceeds expectations

Introducing our company

Luthag Furniture Industry is located in Francisco Beltrão, a city in the southwest of Paraná State, in the southern region of Brazil. This area is an important industrial hub, known for producing furniture, aluminum goods, clothing, and home to major financial cooperatives.

100% of the wood we use comes from reforestation, and 65% of our energy is sourced from solar power.

Pine wood is not only durable and long-lasting but also eco-friendly and versatile. Its natural grain patterns and warm tones create a cozy atmosphere in any room. By choosing solid pine wood, you invest in sustainability, quality and elegance.

OUR TEAM

Our journey in woodworking traces back to previous generations when Italian immigrants arrived in Rio Grande do Sul, Brazil, establishing sawmills to work with wood, a craft passed down through the years. In this lineage, Antonio Presotto, the third generation, ventured to open a small custom furniture factory in November 1987. In March 2003, Luthag Furniture Industry was founded with the primary goal of crafting solid pine wood furniture exclusively for export. During this period, our furniture found its way to markets in North America (USA and Canada) and, to the United Kingdom.
